

Vitamin Shower Filter

The Honey Me vitamin C shower filter: removes rust and residual chlorine and adds vitamin C to your shower, in five fragrances.

The Vitamin Shower Filter screws between the shower hose and the shower head, or at the tap connection. As the water passes through the filter core, it removes rust, sediment and residual chlorine, and adds vitamin C. Each filter core lasts about two months. A standard 21 mm thread fits the valves and taps found in bathrooms.

Key features

Removes rust and sediment

Filters rust and fine dirt out of the shower water.

Removes residual chlorine

Reduces the chlorine that dries skin and hair. Tested: not detected after filtering.

Adds vitamin C

Vitamin C is released into the shower water to keep skin firm and moisturized.

Easy to install

Standard 21 mm thread and a wrench supplied. Fits at the shower head or the tap connection.

Benefits of a filtered shower

- Skin: helps prevent dry skin and reduces irritation.
- Hair: reduces dry, brittle hair.
- Breathing: reduces chlorine evaporating into the warm bathroom air.
- Better lather: soap and shower gel foam better and rinse cleaner.

Five fragrances

● Lemon ● Rose ● Lavender ● Green grape ● Cherry

Full set: 1 shower head, 1 wrench, 1 Lemon filter core and 1 Rose filter core (700 g). Single filter cores are available in all five fragrances.
